Early termination of a farmland preservation agreement or removal of land from such an agreement can trigger payment of a conversion fee equal to 3 times the class 1 "use value" of the land. Visit https://dncp.wi.gov/Pages/Programs_Services/FPAgreements.aspx for more information.
- E12. Is all or part of the property subject to, enrolled in, or in violation of the Forest Crop Law, Managed Forest Law, the Conservation Reserve Program, or a comparable program?

- E14. Are you aware of boundary or lot line disputes, encroachments, or encumbrances (including a joint driveway) affecting the property?
Encroachments often involve some type of physical object belonging to one person but partially located on or overlapping on land belonging to another; such as, without limitation, fences, houses, garages, driveways, gardens, and landscaping. Encumbrances include, without limitation, a right or claim of another to a portion of the property or to the use of the property such as a joint driveway, liens, and licenses.

- E18. Are you aware of archeological artifacts, mineral rights, orchards, or endangered species on the property?
- E19. Are you aware of existing or abandoned manure storage facilities located on the property?
- E20. Are you aware that all or part of the property is enrolled in the managed forest land program?
The managed forest land program is a landowner incentive program that encourages sustainable forestry on private woodlands by exempting the landowner from the payment of property taxes in exchange for the payment of a lower acreage share payment and compliance with certain conservation practices. Orders designating lands as managed forest lands remain in effect for 25 or 50 years. When ownership of land enrolled in the managed forest land program changes, the new owner must sign and file a report of the change of ownership on a form provided by the Wisconsin Department of Natural Resources (DNR) and pay a fee. By filing this form, the new owner agrees to comply with the management plan for the land and the managed forest land program rules. The DNR Division of Forestry monitors forest management plan compliance. Changes that a landowner makes to property that is subject to an order designating it as managed forest land, or to its use, may jeopardize benefits under the program or cause the property to be withdrawn from the program and may result in the assessment of penalties. For more information, call your local DNR forester or visit <http://dnr.wi.gov/topic/forestry.html>.
- E21. Explanation of "yes" responses

E20. Any future development will be responsible for any use value conversion charge.
