ESTABLISHED 2004

SALON SUITES WITH STABILITY

Originally transformed through a complete renovation in 2004, the property pioneered the salon suite concept in the local market and has continued to thrive for more than two decades. The business model addresses a fundamental need within the beauty industry: providing independent cosmetologists, estheticians, nail technicians, and beauty professionals with an affordable pathway to business ownership without the significant capital investment required to lease or build a traditional salon.

SALON SUITES WITH STABILITY

An investment supported by remarkably loyal tenants and a resilient operating model. Several current tenants have occupied the property for 10, 12, 13, 14, and 17 years, with one tenant operating successfully within the property for an extraordinary 22 years. Such longevity is a powerful indicator of tenant satisfaction, operational stability, and the property's ability to support thriving small businesses. Combined with historically low vacancy, this exceptional retention significantly reduces leasing costs, minimizes downtime, and provides investors with dependable, recurring income.
